

Wednesday May 19th

Dad. went back to the gully after the cows this morning and found Mary with a big roan ^{bull} calf. we left her back there all day. Frank went over to Tom Butler's and sheared his sheep for him this morning. I planted some more seeds in the garden and Dad. worked on the corn ground. This afternoon Frank and I hauled out some manure, to put on a patch which Dad. wants to work up for strawberries. Bruce came after Dad. about three o'clock to go down to Bob. Daugherty's with him to see a mare. So Frank and I worked on the corn ground I worked till Frank got the straw berry patch covered and then he took to town and I planted some more corn & my roots in the garden. I went down to band practice to night. Fair and mild all day. sprinkled a little to night.

Thursday May 20th

Dad. and I went back after Mary's calf this morning. We had quite a time finding him as Mary had hidden him in the little gully running up into the field and he lay there perfectly still with his head down so low so he could get it till I was just about on him. After quite a lot of trouble we got him up to the barn and I spent the rest of the day raking & cutting the lawns and got them all looking pretty nice. Dad. worked on the corn ground and Frank springing bushes the back field.

as we thought it would be a good idea to put it down up till we get a chance to plant it for summer fallow. I went down to the Sun is boys meeting to night and finished my collecting for the staple and got \$4.00 ^{provision} money. Hubby gave me five dollars. I went there last and stayed most of the evening. but called in at Auntie's on my way home where I found Cal. Smith, Cassin Holt & Mrs. Barnwell playing bridge. I went there too. Very warm, shower to night.

Friday May 21st

Dad. had to go down to Mr. Fleming's this morning as he had a new colt which he was afraid was not going to be able to suck but when Dad. got there it was all right. On his way home he saw Billy Mills who was very anxious to get Jack's sheep sheared so Dad. to let him I would go over this afternoon. I spent the morning digging around my hedge. Dad. came home and plowed the straw berry patch and Frank went down to Sam Lewis and got a few plants but not enough to fill the patch. I went over to Jack's with the clippers this afternoon and sheared six of his sheep. They are much easier to shear than ours as there is no wool on their faces or the inside of their legs. Frank set out the strawberries this afternoon and Dad. worked on the corn ground. I went down town to night. Very warm. I saw kids in at the stump this afternoon.
