

Sunday May 23rd

Aunt & Frank got ~~pretty~~ down to Sunday School & Church this morning - and Dad & Cuck got a pretty good start for the Smythes so that they were able to get to St. John's for Church. Mrs. Smythe invited them up here to dinner to see Louise as she came up from Toronto yesterday with the Coan's in their car to the Bowlip's but as they found they would see much more of Louise if they went to the Bowlip's to dinner so Mrs. Smythe was nice enough to let them go. They were there all the afternoon and Dad got back in time to help with milk. They left Jeddums in Aunt's & Aunt Alice's care and he was very good and didn't cry a bit. At dinner he got a little egg on his dress and he looked up at Aunt and said "I usually wear a bib." This afternoon Mr. Lawson & Hubert came over for awhile they are here for over the 24th. Aunt Alice & I had a little concert this afternoon. Frank went up to Walleys to look for Ginseng but didn't find any. Frank went down to church to-night. Was sunny day.

Monday May 24th

Dad plowed all day to day, he helped me get the broods out of the shed this morning and put it in the plum orchard and I was quite awhile cleaning it out and working around

and there. Met the three old hens with their broods run loose to-day. I went over to Jack Martin's and got some chick food & scratch food. This afternoon to celebrate the day Cuck, Jeddums and I took a long and very pretty drive up around Vittoria & Post Rivers, we took some pictures. Frank was down town all the afternoon. Doves & ~~since~~ Nanticoke were playing base ball, but Doves got beaten by nine runs. Cos Rankin accidentally hit Art. Lawson in the eye with a bat and broke his glasses cutting his eye. Dick was down town all day too. Frank went with Winnie to the Moving Picture show to-night. Hubby and Skinner Manning drove over to see Dad this afternoon. It has been a lovely day, sunny & warm.

Tuesday May 25th

Dad plowed till about five o'clock but had to stop as his shear was so badly worn so he disked till six. I did up the chares and hoed every thing that was up in the garden. I hoed a little more around the currant bushes it took me a good part of the day doing chores as the little chickens take up so much time. Aunt & Aunt Alice went down to have dinner with Mrs. Allen at the Norfolk House to-day and stayed down at Philip's to-night. Hubby was over all day and got all the old rubbish out in the old garden.
