107 DAYS PAST

168 TO COME

Blood Reconstruction is Imperative

after direct hemorrhagic loss of any considerable degree. A fourfold combination of prompt and certain service in such cases is rest, nutritious food, fresh air in abundance, and **Pepto-Mangan (Gude)**. The regular hematologic test always demonstrates the promptness with which the ferric and manganic elements of **Pepto-Mangan (Gude)** restore the red cells and hemoglobin in such conditions.

Weather

Temp.

Very warm
Odaud brought me
home two baskets of black
cherries & we did them
up then in the evening
Mrs M^c Gray and Maude
came & brought two
baskets more from Blake
Millers. Eugene & Carl went
Polly $2\frac{1}{2}$ to Aymer to night
