

I was about home in forenoon, weather clear started to snow about noon. In afternoon Mr Swing & I went to Pike scheme to see Bradley's betts for which he claims damage field covered with ice so you could see no betts south of G. F. R. but north of it about 5 rows or about 10 loads for a team. Reem & I went to Pump house to await the Com's Pump at work, water low.

Bradley agrees to accept \$75 in full of claim. Many other farms damaged equal to Bradley came home via Townline to com's afternoon very stormy & rough. I did not get to N. Buxton to lodge to at night as intended would not answer Reem why he did not take off betts at home first

THURSDAY 21

(52-313)

I went to school house with Abe, in morning then home and ~~done~~ the chores. In afternoon I took Ada to N. Buxton

Geo Robbins showed me the new petition for townhall site.  
Edgar hauling Manure from  
table door

Weather fine all day stormy in evening
