357 DAYS PAST **SUNDAY** 9 TO COME

SURGICAL HINTS.

In cases of cystitis in young women for which no distinct cause can be assigned it is well to think of the presence of foreign bodies in the bladder. Such objects even when sharp-edged may be tolerated for long periods without causing marked irritation. Such patients are usually hysterical.—*International Journal of Surgery.*

Simply a Reminder—Pepto-Mangan (Gude).

cloudy & keeps trying
to snow. Dandy wheeling.
Girls went to church this
morning they had a song
service. Girls & I went
out to meet Winton
Lehman's was to church
with his wife & children
He has been off to the war
but has to go back again
