98 TO COME

Geriatric Aphorisms—No. 19.

Never give drugs in anticipation. Wait till the indication for the use of the drug is clear, and stop its use when the desired effect is produced.

When K. I. has ceased to lower the blood pressure in arteriosclerosis its further administration is harmful.—*Nascher; Amer. Med.*

Weather

Temp

Rained in the night & some this morning. We washed & Maudie's Grace drove old Joe Clarence & I helped John this forenoon, to draw straw, & this afternoon he went to help Mr Herbert to thrash, & John ploughed. We did our training.
