113 DAYS PAST

252 TO COME

### Vitalization of the Red Cell

is an essential requirement after the subsidence of profuse hemorrhage from any cause. **Pepto-Mangan (Gude)** supplies the organism with the material necessary for the creation of new erythrocytes and the increase of the iron-holding, oxygen-bearing hemoglobin.

Weather

Very warm

Temp.

Jim & Joe was cultivating  
the field east of the woods  
It rained last night. Had  
a tea in the Baptist Church  
last evening. Evelin was over  
to night we went over home  
with her, all of us. Mrs  
Aline was not all day.  
Jim cleaned at the cellar  
this forenoon.
