41 DAYS PAST

324 TO COME

The Anemia of Hook Worm Disease.

A practitioner in Virginia reports: "I am very fond of Pepto-Mangan (Gude) in cases of anemia and chlorosis. It acts splendidly in hook worm cases after the worms have been removed with thymol, bringing the color back to the patient's face and ears in a much shorter time than any other preparation."

Weather

Very cold.

Temp.

~~Mr. Peple & W. did this morning~~
~~Pa went upon 11.15 train. Hope~~
 I took the girls to school & went
 for them. He did our ironing
 I stopped in to Mrs Thompson
 a few minutes. Eugene was
 over helping Mr Dance saw
 wood. in the afternoon, in
 the fore noon the boys was
 cutting wood in the south woods
 good wheeling

Stydia & Billy 10.
