

Tuesday August 19th

Frank and I hauled out 9 loads of manure this morning and got it all out of the shed at the cow stable but at noon we had a very heavy rain storm which put a stop to outside work for the rest of the after noon, it rained two or three times during the after noon. I read, slept and wrote to Vernon asking her if we could stay with her during the Exhibition. Frank & I went back to the gallery this morning. Dad went over to see how Mrs. John. Wess was and Mrs. Mc. Carter said she was doing well, but in dangerous ^{condition}.

Wednesday August 20th

Frank and I hauled out manure all day, and Dad heeded over in the garden. This morning we put all the sheep in the barn and greased the backs of the ewes which have the wool off. We separated the ewes from the rams and lambs and put the latter back in the orchard and will have the ewes in the field till the lambs are weaned. Dick came home to night, he has decided not to go to Midland.

Thursday August 21st

We hauled out a few loads of manure this morning

but had to stop twice on account of the rain, however Frank said the field was covered although he would have put another load on if he had time. This after noon Frank drove J. down and had her shoes set and had Dr. Cook look at his eye which has been very sore for two days. There are some sort of pimple under the eye lid. Dad and I took Belle & Harry out to start plowing. Dad struck out for a head land all around the field but old Belle was in no mood for work after her holidays and it took us about 3 hours to get once around the field. For the last stretch I brought out the cow sprayer and scared her into her collar by spraying at her from behind. Band concert to night. This was supposed to be Bouphner picnic day but for once it was a complete failure I suppose on account of the rain. Five after noon

Friday August 22nd

Frank and I hauled out manure to-day and got out 10 loads. Frank hauled it out along the side road to-day. Dad went down to Auntie's this morning and was down all day cutting the oats and fixing up the lawns & paths. Frank's eye is better but not well by any means. It has been a fine day sunny & breezy but not too hot.
