

November Saturday 6 1926

Another ideal Autumn day. Telfus came down with their team and helped the boys finish drawing in the mangle while I was busy as usual in the dairy. Took a "drip" at night and retired early.

Sunday 7

A lovely November day. I was left alone to wash the bottles as had just got started to wash when Auto came out after me from church. However they helped me so we were all through in an hour's time and up home for dinner at 2:15. Big feed and Prouce and I came back early for chores and then attended the evening opening services at St. Paul's United Church which certainly looked wonderful. Spoke very cleverly and I will find it of Hamilton. A real Thanksgiving day for me which I finished it up perfectly with a drive home from church with Jean.

Monday 8

A beautiful Thanksgiving Day and I have a lot to be thankful for this year but the greatest of all things is that I am engaged to a girl like Jean. A legal holiday but I did my work up just the same as usual.

November Tuesday 9 1926

Quite disagreeable day but it cleared up after dinner so the boys didn't have to drive the cattle to the Junction through the rain when they shipped them to the Royal Winter Fair, Toronto. Completed my first year on Bendemeer Farm.

Wednesday 10

A dandy fall day. Fatie Birley had a rough ride home from town with me in the milk wagon as they were grading the road out to the Golf links in the morning. Wish I was going up to see Jean but went to bed early looking forward to the next night.

Thursday 11

A cold day and I had a cool drive when I went up to see Jean at night but I was well repaid for doing so as I had a nice time listening to the radio and a dandy lunch before I started homeward. Memories of a year ago when I spent the day at Gallop Fair with Jean.
