

Wiser who was sick was going for all  
he was worth down front the Dominion  
Before I got there the bell was ringing  
all right and I found Fatty Lerner with  
the rope. He said some of the girls started  
ring and got the wrong rope. I pumped  
Lunt went off with Fatty somewhere and  
Wiser left before church was over.  
I went down to the dock and sat there  
till about 9.30 talking to Harry Horn  
Alfy Dell and Murray. When I got  
home I found Allard and the Mullmans  
who had been here to tea. She went  
soon after I came home.

Very hot to-day.

Monday July 10<sup>th</sup>

Bill did not get back to-day till about  
2.30 P.M.

This morning Daddy and Dick and I  
got the loft over the horse stable ready  
to receive the hay. Dick went down  
town and got the hooks for the hay fork  
pulleys and Daddy braced the bottom  
part of the barn. Then we pitched off  
the load that was in the barn.

After dinner as Bill had not showed  
up, we came to the conclusion he was  
not going to and Daddy felt rather  
badly about it as Bill knew what  
state we were in. However he and  
I went out and got a small  
load on thinking we would do the  
best we could with the fork alone.  
When we got up to the barn  
we found Stubby, Bill and Lunt  
there getting ready for us.
