293 DAYS PAST

SATURDAY

73 TO COME

Do Not Punish

the weakened digestive apparatus of the depleted anemic by the administration of any of the old-time corrosive, irritant, astringent, metallic ferruginous salts. Pepto-Mangan (Gude) is readily tolerated by the most sensitive gastro-intestinal mucosa and does not produce or encourage a constipated habit.

Weather

Temp.

A fine day
but rather a cold wind
I started packing the bees
have six in the boxes.
Anyone was here & took
Melba to Apliner with him
there they brought the heifer
they bought of Emily Caughell
& Melba went home with
him after dinner, John
bloughed all day, I washed
& worked to night.
