307 TO COME

Poison Ivy.

1. To prevent further penetration of poison: Soap and hot water bath of whole body; discard all clothing exposed to the poison. 2. To relieve itching, water as hot as can be borne. 3. Curative remedies: Ichthyol collodion, 5 per cent., painted on lesions three times daily. Magnesium sulphate in saturated solution, applied on gauze, covered with rubber tissue and bandage. Iodine tincture, diluted with 9 parts of water. Hot 2 per cent. (or weaker) potassium permanganate solution; remove stain with 1 per cent. oxalic acid solution. 4. Where pustules have formed: Hot mercuric chloride solution.—*Von Adelung.*

Weather

Cold

Temp.

Eugene came over after dinner & he & Pa went to Aylmer. Eugene got a little calf of Clarence Skinner. Pa got me some more medicine Mellor. made some cakes. Joe went to Aylmer & got the mail.
