

While they were gone I cut some weeds
with the scythe and helped Hubby
trim thorn trees over on Coleman's line.
We got in five loads altogether
to-day and left one in the barn. There
is a little over a load out in the
field yet.

Gerdie was over with Dick most
of the after noon.

We were very late to night with
the skows as the last load was late
coming in.

It has been pretty fairly warm
to-day but cloudy and windy a lot
of the time. It looks a little like
rain but we do not know when it
will come and hope not for awhile.
We got a letter from Auntie to-day.

Sunday July 28th

Got up about half past seven this
morning and helped Daddy with the
chores, then got fixed up and went
down to Sunday School and church.
Nothing unusual happened. I went
home with Daddy and Enah who drove
Joe and Ginger down. I read "Pepey's Diary"
till about three o'clock when I went
down town with the intention of going
in for a swim but as there was no-
body around I did not go in but went up
to the park and walked up the beach a little
way with Hazen and Stubborn Brock.
Then sat in the square a little while with
Egg Thompson and Billy Miller. Then I
went down to Hubby's for tea, thence
to church and pumped for Winer. I
came home soon afterwards as it looked
rainy. It has all day and is just sprinkling
a little. Bill has just come in. He did
not go home at all.
