

Friday September 15<sup>th</sup>

It rained so hard last night that the ground was too wet to work on. I went back for the cows and had a far more tramp than yesterday morning although they were right in the woods but lay down so I did not see them when I had been back quite a while. Daddy came back and we tramped away over into the woods and he at last found them in our woods. Tiger found a ground hog back there and was afraid to go right up and kill it but held it at bay with his paws and with a club. About the middle of the day we took Belle down to get her out of the set as they were a bit in the shop. He stayed with Bill and talked recipe while I went and got my hair cut. Dale went into the printing office and had a look at new api apparatus. We got some just about noon. Dick took his dinner to day.

This afternoon I read far while in "The Millinery Baby" and then Daddy and I went and soaked up the wheat in the barn floor. Daddy killed a couple of roosters and he & Ench drove down town. Daddy got his hair cut and Ench & I tried to take down town and was going to the lower show tonight. I was going down tonight to come home with her but did not feel very well so Dick went instead. I spent most of the evening on the sofa and Daddy cleaned the roosters. It has been cool and rather cloudy all day. I have felt kind of rotten all day. We got a letter from Auntie to-day describing their trip to Banff. Walter took her and she was here for a couple of days and they had a fine time. Auntie evidently thought the mountains were good.
