

Dad. Cultivated with the Speer's talk and the big team on the other half of the field east of the orchard this afternoon. Cloudy and a cool breeze to-day with a little drizzle this afternoon.

Sunday April 22nd

I didn't get up this morning till half past seven although I thought I was getting up at half past six so I couldn't get things done in time to get down to Sunday school. Frank went down and I drove Enah down to church. Aunty came over with us after church and Cousin Clare walked over to dinner. Dick was over too. Soon after dinner I drove Dick down town and then took Mary and Miss Adeson (Kaufman's outlines) for a drive. We went down the Lake shore and up Mud Street. The rest of the family all went back to the gully and got some wild flowers except Frank who went down to the Ryerse's. It was six o'clock before I got home so by the time I got chore done it was too late to go to church but I went down after church and Mary and I went up to Miss Martin's and got my lettuce seed. We also stopped it at Miss M. Quinn's for a few minutes. I called in at Aunty's on my way home and gave Aunty Alice a pinch of my lettuce seed. It has been a beautiful day although a little windy. They have had the town flag up to-day to commemorate the second anniversary of St. Julien.
