127 DAYS PAST

238 TO COME

A Stitch in Time.

An Ohio physician, referring to an anemic patient, says: "The young woman was both weak and emaciated, the red corpuscles were scanty and oxygenation feeble. I had tried almost every ferruginous preparation without results. After using Pepto-Mangan (Gude) the patient rapidly improved and is now strong and hearty."

Weather

Temp.

Rained all day
John took the milk to the factory
and the girls to school & went
for them drove Billy both times
Old Joe kicked up a racket
& John had to go to Aymer
drove Billy, John was over
to Mr. Loves twice.
