123 DAYS PAST

242 TO COME

There Is No Doubt

of the efficacy of Pepto-Mangan (Gude) in cases of amenorrhea dependent upon general chlorotic conditions. Repeated instances of this character have responded to this agent, both in the hospital and private practice. This preparation is a valuable addition to our list of ferruginous preparations.—*Medical Summary.*

Weather Fine I went Temp.

to church with Aunt Belle
Eugene brought Aleta for
tea! I preached at
Lerosley & Hunter church,
they went in the evening to
hear him. Eugene was
dinner to S. heels & Pa in the
morning
