107 DAYS PAST

258 TO COME

Especially Indicated in Pediatric Practice.

Children's ills, even when apparently mild in character, frequently result in anemia of greater or less degree. Because of its palatability, ready tolerability and prompt absorbability, **Pepto-Mangan (Gude)** is especially indicated in the various forms of anemia met with in pediatric practice.

Weather Warm We papered the
Summer kitchen Maude, Nellie
& myself. Joe Mills papered the
Painted the kitchen ceiling
Kid & Gene Clarke was here to
day. The boys was at the north
place all day I mowed. Hilly for
spinner and Franklin
Price came up a little while
this evening & Crelin, was
over also. Dr. Augustine was
here to dr the two year old
hefter.
