313 DAYS PAST

52 TO COME

Freedom From Infection,

during the prevalence of Typhoid, Grippe, Malaria, etc., depends upon the physiologic resistance of the tissues, which, in turn, is largely dependent upon hematic sufficiency. **Pepto-Mangan (Gude)**, by its reconstituent properties, establishes a blood supply of sufficient structural and functional integrity to withstand morbid influences.

Weather

A fine day

Temp.

Girls drove to school. John went with Andrew Davis down to Frank Smith's sale after ploughing a little while in the morning. I cleaned the parlor, bedroom, Parlor, dining room & bedroom and the dining curtains, baked bread. Wilfred mowed up a few minutes.

Marion &
