99 DAYS PAST

266 TO COME

Both Were Pleased.

A physician in England writes as follows: "I tried Pepto-Mangan (Gude) in a case of neuralgia and digestive trouble, with anemia, and both the patient and I were pleased with the result. I am getting a supply of it."

Weather

Temp.

Ground frozen hard
Snow flurries. North west wind
I baked Bread & Buns. The
girls drove to school. Boy's drawing
manure all the forenoon. Then
after dinner they went over to Mr
Dance & bought his north place
Mrs Dance now papering her
dining room. Eugene was up to
Hardy's (Blossom). The roads are
very rough like bricks turned
up on their ends every way.
