

pack apples. He said Johnson was in at his place this morning and told him that they had three cars down there and wanted to get them loaded by tomorrow noon. Dad helped us sort and we got four barrels put up this afternoon of Spys and one Sweet. We couldn't get a barrel of No. 1 Spys so had to put them up Domestic. Lila was over this afternoon and told us that George Murphy was dead - Fle. She stayed to tea and as it was a nasty night all night I went down town and left them up at Nuby's that Lila was going to stay ~~at~~ at the farm. It has been cloudy all day and rained a little to night.

Saturday November 9<sup>th</sup>

Sam came back this morning and helped us pack the other six barrels of apples. We got two more of sweets and four of Phoenix, that is the latest name for the red apples which we used to call Aunt-no-further and which Johnson's man said were Vandewees but Johnson said to day he thought they were Phoenix so that is what we labeled them. Frank and I got them down to the Main St siding on the radial track a little before noon but could find no body around, except some section men playing poker in the track house. They said that

two cars were loaded but that they expected another or down this afternoon. Johnson ordered three cars and they came but the fellows at the station let George Duncan have one of them so that rather made a mess of things. We unloaded our ten barrels on the side of the Rock right near a load of Irwin Pews and Sid. Marsh's and then went down to find Johnson, we found him at the Dominion and he gave us a receipt for the apples. Alan has come up at noon to day to get Frank to go down and help him clip a horse this afternoon so Frank was down there all the afternoon. Dad and I got the cider barrel into the wood shed and tapped it and then I packed Roy's barrel of apples. Frank went down town to night. Rainy and cloudy all day.

Sunday, November 10<sup>th</sup>

We all went down town to Church this morning, for the first time for about three weeks. I stayed down at Aunt's for dinner and then went up to see Mary. She was just starting down town to get some medicine for Sude Davie who is pretty sick with the fle. We got her medicine and went to see Miss W. Queen for awhile and then went up to the Drivess and Mrs. Law who is looking after Sude. sent us back again to get some oranges and
