80 DAYS PAST

Saturday

277 TO COME

The Repair and Waste of Blood and Tissue depend upon normal oxygenation of the circulating fluid. When there exists an essential "iron lack" in the blood, normal exchange and interchange are deficient in both character and extent. **Pepto-Mangan (Gude)** supplies the necessary hemoglobin-producing material, in promptly assimilable form, in Anemic, Chlorotic and Marasmic conditions.

Weather

Cold with snow

Temp. 1

Wind, blowing hard all day.
Maude went to school.

Eva & Hubert was over this morning, & this afternoon Eva & Clarence went to Ted Trinos sale & Eva bought a white sewing machine & Hubert stayed with us. Eugene was here for dinner & stayed a long time after dinner.

Mella has a terrible cold & we have been making lace for Mella. Helped John to put up a grain. Williams Mills barn burned last night March 5-
