233 DAYS PAST

132 TO COME

An Increase of Circulating Fluid

is not the only essential, in acute anemia from traumatic cause. The good result that follows saline infusion in such cases is increased and accentuated by the prompt and regular administration of Pepto-Mangan (Gude), in full dosage, which serves to quickly augment the corpuscular integrity of the blood and to materially increase its hemoglobin content.

Weather

Temp.

Engene & Alita & I went
to night. Maude went
to the north station for
him. Maude & Melba
was to Aymer. Engene
& Alita went over &
stayed all night -
with Mr. Danes
