

Saturday April 3rd

Dad. and I went down to the orchard this morning to burn brush but it was so windy Dad. and Arthur decided it would be dangerous to start a fire so we came home and I walked down to the Creamery to get some butter as we were right over. I went down to Ryras's and then walked up along the creek to the second bridge. I saw several of the fellows back there working on the land either on the side hills or on the flats which dry out quickly on account of the gravel bottom. Roy Hammond was at the factory and he gave me a ride as far as his place on my way home. I came through Tom Butler's place and stopped to talk to them for a while so it was after one o'clock when I got home. We didn't do any thing much this afternoon as it was very cold and windy. Freezing to night.

Sunday April 4th Easter.

(Martha's calf (bull) came to day)

I went down to Sunday school this morning and the rest went down to church except Frank who had to help old Bill George do chores over at Jack Martin's. Vernon came over here to dinner with Cuck and Roy and I walked over after having dinner at Aunty Alice's. We didn't do any thing extra ordinary for the rest of the day. Roy and Vernon left early in the afternoon to go to Stuby's for tea. Frank went down to the Ryras's this afternoon Floyd & Gary have been sick and are not much better yet. Miserable cold new day

Monday April 5th

Dad. & I went down first thing this morning to see Roy, Vernon & Aunty off as they thought they were going at nine o'clock. they didn't get away till eleven though Aunty went back with them to spend a week. It has been a miserable day with ice over every thing from last night's ice storm. To night I went down to the Vestry meeting as I promised Mr. Johnston I would. He asked me to act as secretary for the meeting so I had to go over to the Rectory afterwards to copy in the minutes. I had intended getting my hair cut but Mrs. Johnston treated me to crackers, cheese & wine, and Mr. Johnston gave me a cigar so I sat there till too late to go to the barbers. They have had quite a day of it down there as Percy Denkin & Miss Daughey were married to day and they entertained the party at the Rectory. It was wine which Percy brought down that we were making merry with to night. I stayed all night at Aunty Alice's as Aunty is away although Aunty Alice said she intended to stay alone, however she had the bed ready for me if I intended to stay. Cold.

Tuesday April 6th

Dad. & I did chores this morning and this afternoon Frank and I went up to Sam Thompson's and got the rest of the hay that he said we could have
