

Thursday July 20th
Bill came back about five o'clock this morning and as it was too wet to draw wheat he went at the plowing of the wheat ground. I saved quite a lot of wood and cut some lawn. Then Daddy and I went out and ripped down the fence around the old garden as it was in Bill's road. We got fall down but the west side by name and we left it because there are cherry bushes along it that we did not want plowed up.

Daddy and I fitched off the load of wheat right after dinner. I mowed away. Then we greased the wagon and Daddy took Jake and Ginger over to borrow Ny's roller. We shocked up all the wheat that was cut yesterday. Then Enah and I went over to the old garden to pick raspberries and got through at six. Daddy came

over and rolled down what Bill had plowed. Bill has nearly a whole land plowed in the old garden row. We are going to plow it all up except the speck trees and berry & currant bushes. After tea I went back to the gally with Daddy and Jige to get the crops. After we walked I went over and planted some radish and lettuce seed by the tomatoes.

Dick went down town to see what band was playing he found out it was the Simcoe band and Bob. Rankin playing in it. It's some a very nice frother. It has been pretty fairly warm to day with a windy looking sky to-night.
