340 DAYS PAST

25 TO COME

Thyroid Treatment of Sterility.

In certain cases of sterility the cause of the condition may lie in a lack of correlation of function between ovaries and thyroid gland. In that event the administration of thyroid extract may be of service. Weil reports 3 cases of apparently permanent sterility, in which the administration of thyroid was followed by conception. He prescribes one "iodothyryn" tablet three times daily.—Weil; Muench. Med. Woch.

Weather

Temp.

Very windy & cold
Still the ground is not
much frozen. The Dr. Ross
McLeay & Maude were here
for dinner & spent the
afternoon. Then to night
John & I was down to Charlie
Marchant & Maudie & Della
Stayed with Eveline. Mrs.
Marchant died last
night—about half past ten
John & Harrie are here
to night. Billy & eight.
