Children's Ills.

even when apparently mild in character, frequently result in Anemia of greater or less degree. Because of its palatability, ready tolerability and prompt absorbability, Pepto-Mangan (Gude) is especially indicated in the various forms of Anemia met with in pediatric practice.

Weather

Temp.

Rained last night & about five to eight, it rained & the lightning struck Charley Phelps's barn & burned it, all his oats a thousand bushels, his hay & straw & took one little calf. Bella went to Aylmer with Aunt Bell. We have been carrying pickles John drew two loads of gravel
