

Saturday November 8th

Dad plowed all day. Frank and I hauled in the rest of the manure this morning in two loads. We put one load in the cellar and left the other on the barn floor to feed up. It took us till noon to pile them all down cellar and clean up the cellar floor. Dad helped Dad do some ditching this afternoon and I did chores. I bedded down the cow stable and put the cow in for the night. Maen came and took his ram last this afternoon. I went over to Quamby's and telephoned Neff as he wrote me yesterday asking me if I could go to Toronto on Monday to help him fix up an exhibit for the Fruit & Flower Show. I'll go

Sunday November 9th

Frank Sid and I went to Sunday school this morning and Cuck came down to church. Jim went to Hubby's instead of going to church and he Quint & Halcy went up the creek & stayed at Hubby's to dinner. Mary and I had dinner and spent the afternoon at Aunt's. Then we came over for tea. Quint and Sid came over with us. Geitha came over to practice a song with Cuck to sing to-morrow

night when the Prince's flag is to be presented to the town and township for winning their objective in the Victory Loan. She wouldn't consent to stay to tea but after going down the road a little way on her way home she met Ray who scared her back and she stayed to tea and for the evening. I stayed at Aunt's all night, to leave for Toronto in the morning.

Monday November 10th

I left on the 7 o'clock car this morning, left Brantford at 10:17 and arrived at Ray's about noon. They hadn't received my card so were very surprised to see me. I went out to the Exhibition grounds right after dinner and was out there till six helping Neff get a little corner in the Transportation Building fixed up for the Norfolk exhibit, none of his stuff had come so we couldn't do much. I went back to Ray's at six for dinner and stayed there all the evening. It has been cloudy & rained a little
