

Monday November 7th

This was Thanks giving day but so cold and raw that we didn't celebrate it. Mary felt a little better but not well and I stayed around home all day. Frank, Jim & Bob Pickford were out here hunting this morning. I finished ploughing the field and started on the little side hill where we had the peas this afternoon. Tonight I drove down to lodge and let Frank have the car to drive home to Brautford to catch the train. Bob & Maud went with him and they went to show us Dick drove me home.

Tuesday November 8th

Frank brought the car home this morning and I drove him back and took down six bushels of apples and shipped three to Dorrie & three to Phyl. This afternoon I took a couple of bushels down and gave one to Auntie and one to Dad. I went up to Jed. Nicalls to have anti-freeze put in the car radiator but when Jed. drained the water out and put the drain cock back it leaked and he couldn't stop it so we didn't do any thing with it. I was

was here all day and I drove her home to night. Old Dave was over just after dinner to see if I was going to buy his place this fall. I told him I couldn't as I didn't have the money so he wanted me to take it and pay him when I could but I told him I wouldn't do that without consulting Dad. I asked Dad about it when I went over there but he said he couldn't promise me any more money next year if he built a house, but said I had better make some arrangement with old Dave. Not so cold but raw & windy.

Wednesday November 9th

I went over to Dave's this morning and without any argument arranged to rent the workable land from him next year for \$45.00 and pay half the taxes. She would have wanted to rent the house and pasture from me if I had bought it so I think this is a good arrangement. It was a lovely day today so as I had to take the car back to the garage I persuaded Mary to go with me and she and the kids went to the Bagleys. Foster was at Nick's when I got there and he discovered a crack in
