

the next day warning all the neighbors out to
a combined shower, "chivaree" and dance next
Friday night. Dad. went down town this afternoon
to see Roy and I spent most of the afternoon in the
shops and then went down and took a walk over the back
half of Flemming's place as it is for sale now separately.

Monday June 13th

Dad. has disked all day on the corn ground but didn't
get a very early start as we had to go back and catch
the buses. I spent most of the morning cutting the corn
and Frank and I separated the cobs from the cobs
and shot them up to store them preparatory to drying
them for tape worms. I rolled the corn ground this
afternoon. Frank has been visiting black smiths
trying to get me to shoe Joe. Mallam has a sore hand
and can't do old John Evans work. Last night I went down
to band practice. Very windy and quite cool to night.
Sid is all right. Mary just about well but Aunt's touch is very bad.

Monday June 20th

Another week has rumbled along and past and I

don't seem to have had a minute's time to get down
the doings day by day so will have to lump it again.
We have been very busy getting in our corn and I
have been rising at half past four & five so had not
much time in the mornings and as Mary has been
down at Aunt's all week I have spent my evenings
going down to see her. Mom. Thompson came down
and planted the corn for us on Thursday. Friday
it rained and I spent the day painting of show
cards. Dad. drove down in the afternoon and brought
Mary home and ^{Friday} night we all went out to Louis
shower and dance where we had a great time.
Frank cut half of his alfalfa and a little hay ~~and~~ day
but we have never done anything with it. Thursday night
the band stayed in the park for the church garden party
it was to have been at Jack Paines but he is too sick
to have it. Later day I borrowed the corn ground and
broke up a lot of the hard clump which had softened with
Friday's rain. Yesterday Dick came home for his
holiday two weeks. Dad. stayed down quite afternoon
with him and Mary and I went for a drive. Saturday night
I camped in the gully with the boys - never again! Hope
