

with the team and waggon soon after breakfast and
was loaded up the spray tank mixed up a batch of
spray and got over all the apple trees here before
noon. We had enough left in the tank to do a
couple more trees so we went over to Louis and
emptied it before dinner. but it was drizzling rain
by then and as it kept it up with increasing
intensity all the after noon we didn't go back at the
job. I went up to the attic after dinner and had
a nap and read for awhile. but Mary suspected
me and routed me out to build a couch to put out
on the verandah so I cut out the pieces for it but
didn't have any spikes so couldn't finish it. It
has been cloudy with a cold east wind all day. We had
to light a good fire to keep warm and then shivered.

Thurs day June 5th

The east wind and rain continued all day with
occasional let ups followed by heavier showers. I
went over to the Lampkins for awhile to pay Duane for the
calf. Tom came over and finished blocking up
holes under the new fence. I also put the first coat
of paint on a big market basket which Mary intends

using for a cradle. This after noon I snoozed &
read most of the time and about five went out &
levelled down the last of the uneven hummocks of
cellar clay under the crab apple tree. Tom has been
fixing fence as I heard him driving iron posts
and when I went to get the cow to night I saw where
he had put some in along the gully fence. He told me
he trimmed Jimmie's feet with the saw yesterday.
Muriel went over to a W.S. meeting at the school house.
Mary baked & sweet all day & is pretty tired to night.

Wednes day June 6th

The rain kept up all day and into the night.
with heavier down pours than yesterday. I didn't
do much of any thing. I put the handle on the rake
which I broke yesterday. made an arrow for Harry.
B's bow and gave the market basket another coat
of paint. just before tea I walked over to Louis and
got some eggs and got soaked.

Thurs day June 7th

It stopped raining at last and has been a fine day
although this after noon it came out but & looked like
