270 DAYS PAST

**THURSDAY**

96 TO COME

March 20, 1907.

Dr. A. A. Hallock, East Liverpool, Ohio, says:

"I find Pepto-Mangan (Gude) a very good article in syphilis. In fact, have had better results in building up my syphilitics with it than any other tonic I ever tried."

March 30, 1907.

Dr. J. B. Ellis, Helena, Ark., says:

"I will state that Pepto-Mangan (Gude) is my stand-by in anemia following malarial fever."

Rained to night but  
fine all day. Mr. Poyer  
thrashed the north barn  
out to day, & moved to the  
south barn to night. To  
day was the first day of the  
ay-liner fair. Mark was  
thrashing to day. I did my  
own work all day & didn't  
mind it either. Girls wanted  
to stay home but I wouldn't  
let them. My beaverley had  
a bad hemorrhage <sup>last night</sup> Mariah &
