

*Mrs. John Sweet.*

**While Attacking  
the Cause,**

the secondary Anemia of a constitutional infection or diathesis should not be entirely neglected.

**Pepto-Mangan ("Gude")**

aids mightily in restoring normal conditions, by

1. Increasing appetite and improving digestion.
2. Rebuilding old and creating new red cells.
3. Increasing the hemoglobin.

As a result, such causative therapy as is under way is encouraged and assisted in such conditions as Chlorosis, Bright's Disease, Tuberculosis, Chorea, Post-Operative Devitalization, Convalescence, etc.

**M. J. BREITENBACH CO.,  
New York, U. S. A.**

**In 11 oz. bottles only.  
Never sold in bulk.**
