276 DAYS PAST

89 TO COME

Gastric Aphorisms.

An intense yellowish green color of meat fibres in the stool is very suggestive of catarrh of the ileum.

The mistaking of spasm of the pylorus for intestinal colic is notably frequent in diagnosis. Pyloric pain is associated with meals, with certain hours, intestinal colic is irregular.—

Vomiting of blood without previous epigastralgia is suggestive of chronic passive congestion rather than ulcer.—*Bell; Med. Herald.*

Weather

Temp.

A warm day
 Mella, Aunt Bell & I went to
 church. Aunt Bell came as
 far as here, then we took old
 Mariah & went to church. Mella
 & Evelin went to Sunday school
 Maudie was home all day,
 Eugene was over, Alita stayed
 to the Kingmill Sunday school
 hallah, Evelin & her father was
 over this evening, John is over
 to Marks

Mariah 16.
