

September Saturday 25 1926

Another damp wet day but far different from the day before as it was a lot colder and finally cleared up near night. Lovely day for Salt show? Alip. made two trips to Woodstock to bring home balance of show cattle. Wrote to Evelyn at night.

Sunday 26

Up early and home and washed up by one o'clock. Attended Sunday school at the mission for first time since I came to Rindome. Drove up home for supper after which Carl drove Jan and I to church where we heard a good sermon by Rev. Simon Edwards. Nice drive afterwards in the buggy and a pack of cake and water melons.

Monday 27

Another fine day. Busy day on milk route. Boiler valve blew out in afternoon and I had quite a time acting as a mechanic. Late finishing at night as boys work late and finished sowing wheat in field across road. School fair day for Keghan district.

September Tuesday 28 1926

A wonderful day. Practice at night but I didn't go as it was after eight when I got through supper so retired early.

Wednesday 29

Up at four, had breakfast at 8.20 and was home from milk route at 10.15. Had lunch and then acted as truck driver when Andy and I took load of sheep to Drumbo fair. Good show, nice day, and as usual a lonely time with "Jean".

Thursday 30

Another fine day. Helped clip two show heifers after dinner then had a very busy time washing about 275 bottles. Attended practice for play at night but was home at 10.30. The end of a wonderful month.
