

down to Hammond's hush to see old Ad. Ledbeck's log cabin. He got some of them down at Huby's too. When they come back Clem, Frank, Kathleen, Liddens & I went for a ride down town and up to see Globe Park. They thought it had changed a lot since they used to summer there. We took Aunty down to stay at Mrs. <sup>Lecky</sup> Batterships to tea. After tea we took Cousin Clare home as she had been ~~down~~ here all the afternoon. got Aunty and went up to Cousin Lolla's for a while. Came home again. Then Clem took Frank and me down to Huby's so the car had a busy day of it. Dick was down town all the afternoon. It has been very hot all day.

Monday June 14<sup>th</sup>

Huby came over with Frank and me to break fast after which Huby, Mr. Millman, Clem and I left for Billington's armed with fishing tackle and arms ammunition and a spade as Paw was anxious to get some ground hogs and trout. We didn't get up there much before noon and spent an hour or so hunting woodchuck. Mr. Millman killed one and shot at two others at once but they went down the hole. He also set Huby and Clem to work digging one out but that got too tiresome so we quit for dinner. The Billington Bros. were very pleased to see us and gave Huby & me a pressing

invitation to come up again some Sunday for a fish. We fished most of the afternoon ~~was had~~ but they weren't biting, we caught four fish altogether. Mrs. Millman one and I caught three. Before we come home we had another grand hog hunt but didn't get any. It was after eight when we left but it didn't take long to get home. We went through Normandale and saw old Bowery Lakes. Tonight Clem took the notion that he wanted to sleep in the barn so of course none of us would be stumped and the whole fam of us gathered up all the robes and quilts we could find and made a very comfortable bed but we didn't get into it till mid night and Dick was telling stories when I went to sleep but I never woke up till day break. It was pretty warm all day but a cool breeze.

Tuesday June 15<sup>th</sup>

It rained during the night and has been rather wet all morning but cleared off and was a fine afternoon. Mr. Millman wanted to start for home this morning but we thought the roads would be too wet for the car so I drove Dick down to the bank this morning and took Clem with me before he was up. When Clem & I got back we thought they had decided not to go today so we went down again and took Kathleen with us. I took her down and had
