

Thursday June 23rd

I had mangels this morning till nine o'clock and Frank had in the garden & Dad did share, by then the dew was off and we went out and sheek up the hay where the alkali was heavy & green. Then I went to get the rake & raked the far side first and before dinner the heavy spots were fit to rake. Dad & I cooked up for a while before dinner and we all went at it this afternoon and got it all up by 8 o'clock. Butter went by this morning with a load of pork and threw off a couple of pork fults which were loaded. Dad, Ted & I shelled out hats full and took them up to the house for dinner and Mary came out with us and got two basket full more. To-night I went down to hand practice & Mary went with me & waited at Aunt's. Mr & Mrs MacClive came to-day and are down at Aunt Alice's now. Chris gave us a ride down and all the way home in his car. Very hot.

Friday June 24th

Frank had I changed the rails and fixed up the hay over in the big barn to haul hay this morning

and we moved the calves over there from the old barn. We hauled in one load of hay and pitched it off in the horse stable. Before dinner had an early dinner and hauled in three more this afternoon. One we pitched off to feed to the bulls and the last one we left standing in the barn floor. Mrs. Walker brought Aunt Alice & the MacClives in for a few minutes this morning. They were just out seeing the town. Dad & Cash went down to night to see them and took Jack Martin down as they are both such admirers of Sir Arthur Meighan's & Mr. MacClive has come direct from Parliament. Mary & Frank went down to the Bible Society meeting to hear a native Chinaman Mr. Williams speak and Ted & I stayed home to go to bed early. Frank was over for tea, but but nice breeze.

Sunday July 3rd

Over a week this time with out finding time to make an entry so will condense again. Saturday June 25th we finished hauling the hay that was cut and in the afternoon I went to Dimeos to a short hair meeting
