# Thursday, September 10

254 DAYS PAST

T U E S D A Y

112 TO COME

S. J. Meltzer, in a paper ("Treatment of Anemia") read before the American Medical Association, June, 1907, says:

"Iron, stored up in the body and fed out into the circulation and tissues as it is required, is one of the physiological factors of safety."

Pepto-Mangan represents the highest perfection in Iron Therapy.

could had a heavy frost -  
froze nearly all the garden  
stuff. Clarence Mark Beech  
& Popple were here helping  
draw out's. I ironed  
Charley Marchant came  
& took two lambs, & brought  
me two sacs of sweet  
corn
