

Friday February 17th

Didn't do much this forenoon. Mrs. Lampkin came over to invite us to a party next Wednesday. I got the car out to drive her home and Mary & the kids decided to go too and go on down town so it was after noon a little when we got back. I did some more pruning this afternoon. Tom came over with another load of poles from the farm. About five o'clock we all drove down town again. Mabel went with us and went to the doctors. Mary took Gay & Harry B. to Ben Pickford's and had their hair trimmed and I went down to Auntie's and had a bath. We took Mabel home for over Sunday on our way back. I fell asleep in my chair to night and when I came to my knee was paining again. Horrible day.

Saturday February 18th

My knee was very stiff and painful during the night and has been stiff all day but is a little better to night. Tom came over with Herb Law's flat rack this morning and got some corn stalks. I helped him load them but haven't done anything else all day. My knee was too stiff to do much for me thing and it was too bitterly cold for another. There has been a high north wind all day and it is still howling to night and is very cold.

Sunday February 19th

We got up late but in time for me to drive Mary & Harry B. down to church. I came back home with the other two and changed my clothes and shaved. We went back after Mary & Harry B. and got invited to stay at Auntie's for dinner. We left there about half past three, went up to Mrs. Will Halden's where Mrs. Rev. Johnson is staying and Mary invited her out for tea or dinner or something on Tuesday. We then went over to the farm for a while and called for Mabel on our way home, Mary first going in to make some arrangement with Don. Started out a fine cold morning but got a little milder and a great deal rougher. Blizzardy all after noon. S.W. gale to night.

Monday February 20th

Haven't done any thing but sit around and read and do the necessary chores. It was cold and blustery and my knee was quite stiff again especially this forenoon. I went down to band practice to night but there were only 8 or 9 out and the Simcoe fellows didn't come down so we didn't practice but played for a while. Frank was down town and came home with me and then took the car to go to a party at Leroy Evans.
