

A letter to peruse in which he was deeply interested so
amused at the points where Mr. Park's personality displayed
on itself. He of course had no advice to offer but said that
by as far as anyone could see, prospects were very good.
Enoch & Vernon spent the time shopping, and Vernon
picked out a set of dishes for Aunty & Aunty Alice which
Roy had to pass on & pay for and arrange for delivery
after we left Frank Reid's with the consequence that
we didn't get away from Simcoe till about one o'clock
in much to Roy's discomfort as he had promised Aunty
& Alice to be back by half past twelve. Dad. got off here
with me and had dinner after which he helped me
put the load of straw off and I went back home with
him and took the wagon back and drove home in my
buggy. Marston was in just after dinner and said
he wanted me to get some gravel on the roads and
cut the weeds so I saw Joe Breen to night and
he said he would start cutting weeds on Monday. Hot.

Sunday August 16th

Mary & Harry B. drove down to church this morning
but Harry B. had a sore throat and felt so tough
that Mary had to take him out of church. They were

to the doctor's after service and got some medicine. They
stayed at Aunty's for dinner and I took them
home about three o'clock. Harry B. seemed very much
indisposed when he got home but had not been
lying on the sofa long when he was kicking up his
heels and seemed quite recovered. I just lay around
all day, the baby slept nearly all the time. Mary was
gone and Guy. from the time she left till about one
when I gave her her dinner, the baby woke up then
too but before I got the water hot to give her, her
bottle, she was asleep again so I let her go. I
didn't milk till after sundown to night as it was
so unbearably hot & sultry. Frank told me & then
Carl Coleman came out to night while I was
seperating to tell me to be ready to marrow night
and Carl & Frankie Lemmons would call for me to go
to Jarvis as all the board was going down to a Cornice
they had having down there looks very like rain.

Monday August 17th

I went down town first thing this morning as the dew
was too heavy to get at the hay early and I had to
get coal oil. I stopped in at Aunty's and said good bye
