

stayed with Sam till Tuesday night helping him  
up his corn. He went to the Fair in Wednesday and  
has been sick ever since he is just beginning to  
get around now. I stayed down at Aunt's for dinner  
on Sunday and Sunday afternoon. Aunt Alice came  
over here with me and stayed to tea. Aunt went to  
Scotland this morning with Dick Tibbits to see Uncle  
Roback. They had to come back on the L.E. & B. as Dick's  
car played out. The Bowbys came down in the after-  
noon and took Aunt Ida up with them for tea. Jack  
Martin was over here after tea to ask Dad. to go with  
him on Tuesday to a political meeting near Oyster  
Lake. Frank took the dog down to be shod and brought  
Aunt Ida back with him to spend the day. It began  
to rain this afternoon and we had quite a heavy  
thunder storm but it stopped before night. Dad. drove  
Aunt Ida home after tea. To-day I went over to the Gully  
to help him put in the storm window but he thought it  
was too warm except I helped him make some  
Curtain went over to get the Curtains and wash them but  
as Mr. Zealand was away when she got there she didn't  
take them. Dad. went with Jack Martin to Staffordville  
and heard Mr. Meighan, but said they had a very  
tiresome day as they had to wait so long. I got some  
flower roots over at Mr. Batters by's ten after noon. Frank  
left better and picked the Kings. To-night I went

down town to get my hair cut but couldn't get into  
any of the barber shops so went down to see Aunt  
Maude. It has been a very nice day.

Wednesday October 13<sup>th</sup>  
Dad. and I walked back to the gully this morning  
to get a long pole that was back there for fire wood and  
while we were back took a walk over to look at the  
wheat which is coming nicely since the rain and as  
we saw Cam Mr. Bride back plowing pea stubble  
went over and talked to him for awhile. Frank drove  
Dad. down to school. It was pretty late when we got back  
but Dad. castrated the four calves before dinner. The  
big roan bled quite a lot and to night Dad. went to  
look at him but thought it had stopped pretty well. However  
he started up a gain during the night and bled to death.  
This afternoon I went down town and got my hair  
cut and made the final preparations or purchases  
as to marriage Aunt Alice and I leave D. O. for Halifax  
where on Saturday Mary and I are to be married.

Wednesday November 8<sup>th</sup>  
There must of necessity be a considerable gap  
left in these records caused by the event predicted  
in the last entry. I was away in Halifax
