

May Tuesday 10 1927

Heavy hail and rain storm started at 5:45 A.M. but hail only lasted for a few minutes even if they were as large as peas and it stopped raining about 9:30. Took Fly's shoes off and packed hydro poles till noon. Dan and I cleaned out box stall, 3 loads in all and spread it in sod field and finished manuring the field. I took out last two loads and helped Jean milk. Billy's new first lamb arrived.

Wednesday 11

Struck out a load for Dan in sod field then finished the sod field except 3 rounds around headlands which I plowed all day with the bay and gray in spite of a nasty drizzle at times in the morning. Plowed six rounds in sod before I quit to help milk and separate. Webster and Chulaia were here for tea. We all have an invitation to dinner in Bradford on Sunday next. Cut Jean's hair at noon for the first time.

Thursday 12

A nice bright morning and I plowed sod all morning with my team. Dad and Mother, Carl, and Bobbie took Jean and I to Bradford with them in the afternoon and I had the beneficiary of my life insurance policy changed from Mother to Jean. Carl got a new Spring coat and Bobbie his first suit of long trousers.

May Friday 13 1927

Finished plowing the sod field in the morning except for a few rounds around the headlands. Rolled and hauled in the other sod field all afternoon after I helped Dan fill the spray tank. Jean and I drove up home at night and took Mother's plants up. We had an invitation to a dance at Glenmorris given by Nell's relatives but didn't go.

Saturday 14

Rolled hydro poles until 10:30 when Dan had finished plowing headlands in sod field then started to draw out manure. Took out four loads and spent them all myself in the afternoon while Dan gassed the Dodge. Went to town at night even if I did feel tired and we had a good feed of figs for.

Sunday 15

Didn't go to church in the morning as we all went down to Webster's for dinner. Maybe we didn't have a brave feed and I weighed 157 and Jean 140 pounds afterwards. We didn't get to church at night as it was raining and we were too late getting through shoes so went to bed early.
