333 DAYS PAST

Thursday.

33 TO COME

Devoid of Disadvantages.

The old traditional forms of iron exhibit the disadvantages of astringent and metallic taste, irritation of the gastric mucosa, corrosion of the teeth, and constipating action. **Pepto-Mangan (Gude)** is distinctly devoid of these disadvantages and may be administered to patients of all ages without fear of disturbing the digestion or creating aversion.

Weather

Temp.

Rainy all day and very windy at night. Eugene was here for dinner. Father drew out manure with Richie. Maud and Grace went to school.
