The Depleted Organism

is placed in a better position to withstand or "ward off" systemic infection if the formation of functionally active, oxygen-bearing hematin is aided and encouraged by the administration of **Pepto-Mangan (Gude)**. In the last analysis, the germicidal activity of the blood is dependent upon its hemoglobin content.

Rained all day. Paired
Smetares. Mandie took her
& Leaullem home & went
to school. Grace stayed home
here. Mr. Leo, Cecil, & Albert
was here this afternoon. Mandie
brought home a new set
of dishes, trimmed with gold
a dinner & tea set. I made
a stain - for Grace. & fixed
Mellie's old white dress over
