283 DAYS PAST

82 TO COME

Even a Simple Primary Anemia

is not infrequently followed by serious nutritional disorders. Pepto-Mangan (Gude), while prompt and efficient as a hematinic in all anemic conditions, is especially valuable where digestive debility exists, because of its blandness and freedom from astringent or constipating action.

Weather

Temp.

Rained last night  
& nearly all the afternoon.  
Eugene came & brought  
Polly & Joe home. Alice  
stayed with her mother  
John & Melba went to Auburn  
& Maudie & I went. Maudie  
wanted to get a Libery  
Book where we came  
here. Pard had the cars  
all milled but one  
Billy & Dell & Polly &
