

The image shows the front cover of a book with a marbled paper design. The pattern consists of irregular, rounded shapes in shades of green and teal, separated by a network of reddish-brown veins. The overall effect is reminiscent of stone or biological tissue. A small, rectangular white label with the handwritten number '1923' is affixed to the cover in the upper-left quadrant. The spine of the book is visible on the left side, showing a light-colored, textured material.
