

Wednesday, January 13th
 We were not up so early this morning, Hubert did not get over until nearly noon, Frank and I fixed a place for the steer we are trying to fatten and Hubert helped us move him, after dinner Hubert and Frank went back to the woods, I did up all the chores, it has been a lovely day, quite a strong wind.

Thursday, January 14th
 Hubert and Frank worked all day in the bush and got a pretty good day in, I did considerable fixing up at different things cow stable and rocking chairs etc, Harry Ausby drove his new horse over just as I was busy with the evening chores and it made me late. Has been a lovely mild day, barely freezing in the shade.

Friday, January 15th
 Hubert got over this morning about 9.30 and he and Frank went to the woods, after I did all the morning chores I went to the mill with Joe and the cutter and got 300th chop \$1.75 per cub, The boys took their lunch

to the woods with them so Hattie, Sunny Jim and I had a rather lonesome dinner. Hattie started for town about 3 O'Clock to mail a letter to Loby and to get the mail, she did hope for a letter from Loby but none came. Hattie took the baby down in his carriage but brought him home in a grand red sleep that his grand-dad made him it is a beauty, I went back to the woods and brought up a load but it is quite bare on the ploughed land we cant haul much till we get more snow. It has been a beautiful day more like Spring than mid-winter, I got 4 eggs today.

Saturday, January 16th
 As soon as we had every thing fed this morning Frank and I cut up the load of green wood I hauled yesterday, Hubert did not get over until after 11 O'Clock, he sawed up a lot of rails, Frank carried all the wood we cut into the woodshed, he and Hubert worked at it nearly all the afternoon, quit in time to husk some corn I worked at the chores, It has been another lovely day, Frank and I had a bath tonight, Hattie had a long letter from Loby and we all knocked off work to hear it.
