

**Saturday, March 16**

76 DAYS PAST

*Sunday*

290 TO COME

**The Inflamed Eye.**

The laity should be instructed never to bandage or poultice an inflamed eye unless it be on the advice of some one who knows what is best. Simple ocular inflammations subside under aseptic conditions in a few days. The eye remedies for such cases are hot water, boracic acid, dilute camphor and alum water, and occasionally cocaine for the relief of pain.—*Exch.*

**Weather**

**Temp.**

*Rained all day  
untill towards evening  
then it quit. Mrs Apple  
ford & Gene brought Grace  
over. Melba, Grace & Jarent  
& Leurch.*
