295 DAYS PAST

MONDAY

71 TO COME

May 29, 1906.

Dr. Westhofen, Koeln, Germany, says:

"I beg to inform you that I have derived excellent results from your **Pepto-Mangan (Gude)** in the case of a chlorotic patient. In view of this, as well as its agreeable taste, I shall continue to prescribe the remedy in the future. I would further remark that your preparation has no injurious action upon the teeth and does not irritate the digestive organs."

Warmer the bees worked
some. Melba went to school
alone. Mr Ansel was out
a few minutes to see
Gaudie. Mr Selver left a
cow here for Mr
John took our milk to the
factory & ploughed the rest
of the day. To night Melba
& her father went to Kingsmill
for a bag of dung as it was
nine seven & five
Billey 4 Harish &
